Infrared sensor control, soap dish and wall mounted light, customized size are optional features for different hospital area such as CSSD, surgical center etc..

### FEATURES

- All stainless steel construction
- All inside corners are rounded for ease in cleaning
- Gooseneck faucet with Infrared/hands free controls
- With Soap dispenser

### STANDARD SPECIFICATION

Material	High quality stainless steel
Size	750*600*1800mm(Customersized)
Control method	infrared sensor control

**AUTOMATIC SOAP DISPENSER**

The self-sensing soap dispenser can discharge hand sanitizer as long as you put your hand on the underside of the soap dispenser, reducing cross-contamination.

**INFRARED SENSOR FAUCET**

The infrared sensor faucet can be rotated 180°, and you only need to put your hand on the sensor when the water is out, which is more clean and hygienic.

**FILTER**

The filter net can prevent debris from flowing into the sewer with the water.

**WALL MOUNTED LIGHT**

The sink has a light, just press the switch to turn on the light above the mirror, which is more convenient.
